# Abhishek Kumar

## Full stack Developer

[github.com/slim-python](https://github.com/slim-python)  
[linkedin.com/in/itsabhishek](https://linkedin.com/in/itsabhishek)

Hello, I'm a self-taught programmer, I have developed RESTful APIs with CRUD operations, web applications and modern technical websites. You can Leverage my Software Development and problem-solving skills to create dynamic, high-speed API and web applications.

In addition to Frontend development, I also have good experience in backend end development in Flask and express JS.

Other than all this, I'm a tech writer and my work has been published on [Geeksforgeeks](#), [Google Developers](#) and [Hackernoon](#) etc.

### SKILLS

Frontend	React Js/Next Js, Vue Js/Nuxt JS, TailwindCSS
Backend	Python(flask), NodeJs(express), MongoDB, Strapi, EC2 (AWS)
Tools/Tech	Git, NPM, Yarn, Pip, Redux, Vuex, GraphQL

### TECHNICAL EXPERIENCE

<b>Full Stack developer</b> <i>StockDaddy</i>	<b>01-2022 — Present</b> <i>Gurugram</i>
--	---

- Made UI designs with Figma
- converted that UI into TailwindCSS and Bootstrap in React with Next JS
- Implemented Design and integrated Strapi API with GraphQL

<b>Front end developer</b> <i>Business Arena</i>	<b>05-2021 — 01-2022</b> <i>Gurugram</i>
---	---

- API integration in Vue with Nuxt Js in axios
- UI development in VUe Js with tailwindCSS
- Did Some web scrapping in python BeautifulSoup
- Made APIs in Flask python
- UI design in Figma.

### RECENT PROJECTS

<b>Pinterest video downloader (backend + frontend)</b>	<a href="#">View here</a>
--	---------------------------

- Passing Pinterest video link as a POST request will give you a download link at another route
- API is made with Flask python and Deployed on Heroku cloud
- front end is made on Vue JS on top of Nuxt Js with tailwindCSS

<b>API with Node JS and Express and MongoDB Atlas</b>	<a href="#">View here</a>
---	---------------------------

- API is made in Node Js, express framework
- There are two routes for GET and POST request
- Making a post request it saves the data to MongoDB Atlas remotely (so it is not only limited to localhost)

<b>Firebase authentication with Nuxt Js)</b>	<a href="#">View here</a>
--	---------------------------

- Implemented Firebase Authentication service in Nuxt Js app with multiple routes
- Front end is made in NuxtJS/VueJS
- UI is made with TailwindCSS

### EDUCATION

<b>Bachelor of computer Application, aryabhatta university</b>	<b>11-2022</b>
--	----------------
