Abhishek Kumar

Full stack Developer

github.com/slim-python
linkedin.com/in/itsabhishek

Hello, I'm a self-taught programmer, I have developed RESTful APIs with CRUD operations, web applications and modern technical websites. You can Leverage my Software Development and problem-solving skills to create dynamic, high-speed API and web applications.

In addition to Frontend development, I also have good experience in backend end development in Flask and express JS.

Other than all this, I'm a tech writer and my work has been published on [Geeksforgeeks](#), [Google Developers](#) and [Hackernoon](#) etc.

SKILLS

Frontend	React Js/Next Js, Vue Js/Nuxt JS, TailwindCSS
Backend	Python(flask), NodeJs(express), MongoDB, Strapi, EC2 (AWS)
Tools/Tech	Git, NPM, Yarn, Pip, Redux, Vuex, GraphQL

TECHNICAL EXPERIENCE

Full Stack developer <i>StockDaddy</i>	01-2022 — Present <i>Gurugram</i>
<ul style="list-style-type: none">• Made UI designs with Figma• converted that UI into TailwindCSS and Bootstrap in React with Next JS• Implemented Design and integrated Strapi API with GraphQL	
Front end developer <i>Business Arena</i>	05-2021 — 01-2022 <i>Gurugram</i>
<ul style="list-style-type: none">• API integration in Vue with Nuxt Js in axios• UI development in VUE Js with tailwindCSS• Did Some web scrapping in python BeautifulSoup• Made APIs in Flask python• UI design in Figma.	

RECENT PROJECTS

Express API to send resume by Email (nodemailer)	View here
<ul style="list-style-type: none">• If you are reading this resume chances are my Resume was sent to your mail by this API• This express API is deployed on AWS EC2 (Ubuntu)• For security reason i haven't mentioned the API here	
Pinterest video downloader (backend + frontend)	View here
<ul style="list-style-type: none">• Passing Pinterest video link as a POST request will give you a download link at another route• API is made with Flask python and Deployed on Heroku cloud• front end is made on Vue JS on top of Nuxt Js with tailwindCSS	
API with Node JS and Express and MongoDB Atlas)	View here
<ul style="list-style-type: none">• API is made in Node Js, express framework• There are two routes for GET and POST request• Making a post request it saves the data to MongoDB Atlas remotely (so it is not only limited to localhost)	

EDUCATION

Bachelor of computer Application, aryabhatta university	11-2022
